Message from the Chairman Board of Trustees

Democracy and the protection of human rights must be fought for with the greatest of determination as they will not emerge by themselves. Democracy and human rights are even embodied in the national motto of Indonesia, “Bhinneka Tunggal Ika” (Unity in Diversity). Indonesia is not only looking forward to developing issues surrounding our democracy and human rights at the local or national level but also wider at the regional and even international levels. The Habibie Center was established as a vehicle for the people of Indonesia to continue the process of developing issues surrounding democratization and human rights issues. Globally, the rise of populism, terrorism, and radicalization remain challenges that we must all face.

The year 2022 was a very dynamic and challenging year for our democratization. Rising tensions in the run up to simultaneous local elections provoked the rise of identity politics where religion, race, and group issues seemed to matter more than policies and exchange of ideas. In this sad situation, we should remind ourselves that this Republic was not built to represent only particular group. Our founding fathers aimed to provide a livable world for each and every Indonesia citizen who calls this archipelago their home. In connection to this, The Habibie Center is committed to be part of the solution.

As a vehicle for the people of Indonesia, we cannot do all of this alone in creating a better Indonesia. Thus, I call on all members of society - the government, civil society, the media, and the public – to join us, support us, and work with us under the rallying cry of “Democratization Must Go On!”

Democratization Must Go On!

Dr.-Ing. Ilham Akbar Habibie, M.B.A.

Foreword from the Executive Director

Over the past year, we have taken a number of strategic programs and activities, responding to our increasingly unpredictable and rapidly changing world. Over 23 years, we have consistently advanced our primary principle to promote the modernization and democratization of Indonesian society based on the morality and the integrity of sound cultural and religious values. We believe that democracy should be fought with determinism and not be taken granted. The world's biggest challenge now is not only related to the worsening global economy, deepening inhumanity, climate crisis, and diverse political security threats, but also importantly to declining democracy.

The global trend indicates that the world is getting less democratic. Many countries have reverted to authoritarianism, while in others, including established democracies, there are signs of deterioration in the quality of freedom. Between 1974 and 2005, a majority of states became democratic for the first time in history. Samuel P. Huntington would call the “third wave” of global democratization. However, a global democratic recession began in 2006 and has persisted –and deepened – over the past 19 years.

Mohammad Hasan Ansori, Ph.D.

The Habibie Center's current programs and activities have been designed and executed in a serious response to the global trend of challenges, especially the regressing democracy. The nature of the Center's programs and activities in essence are relevant with one of the Center's pillars; 1. democracy and human rights; 2. democracy, economy and ecology; 3. democracy, science, technology and innovation; and 4. maritime continent. In addition, putting all the global trends of challenges, we mainly give our current focus on at least four lines of issues/concerns, energy transition, democracy, politics and media, inclusive development, and peace and development. All of these concerns are further translated into our last and current programs and activities, taking the forms of seminars, public discussion series, policy research, policy briefs, roundtable discussions, capacity-building, and advocacy. Finally, this Annual Activity Report should be seen as the Center's management report to the public, society and partners and as the main instrument of management accountability.

To end, I would like to express my sincerest gratitude to all The Habibie Center's partners, donors and collaborators for their invaluable supports and contributions. I look forward to working with all The Habibie Center people and team to bring this think-tank to ever new heights and to be the main policy reference of national and global issues and challenges.

Manajemen Yayasan bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan tersebut sesuai dengan Standar Akuntansi Keuangan (SAK) yang berlaku di Indonesia dan atas pengendalian internal yang memungkinkan penyusunan dan penyajian laporan keuangan bebas dari kesalahan penyajian yang material, baik yang disebabkan oleh kesalahan maupun kecurangan.

Management of the Foundation is responsible for the preparation and presentation of these financial statements in accordance with the Indonesian Financial Accounting Standard (SAK) which are applied in Indonesia and for Internal Control which enables the preparation and presentation of reports finance is free from material misstatements, whether caused by errors or fraud.

In preparing the financial statements, management is responsible for assessing the Foundation's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Foundation or to cease operations, or has no realistic alternative but to do so.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standard on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian pengendalian internal.
- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektifitasan pengendalian internal Yayasan.
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.
- Menyimpulkan ketepatan penggunaan basis akuntansi kelangsungan usaha oleh manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Yayasan untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan atau, jika pengungkapan tersebut tidak memadai, kami harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Yayasan tidak dapat mempertahankan kelangsungan usaha.
- Mengevaluasi penyajian, struktur, dan isi laporan keuangan secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.
- *Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design, and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omission, misinterpretation, or the override of internal control.*
- *Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control.*
- *Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.*
- *Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Foundation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Foundation to cease to continue as a going concern.*
- *Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statement represents the underlying transactions and events in a manner that achieves fair presentation.*

Dari hal-hal yang dikomunikasikan kepada pihak yang bertanggung jawab atas tata kelola, kami menentukan hal-hal tersebut yang paling signifikan dalam audit atas laporan keuangan periode kini dan oleh karenanya menjadi hal audit utama. Kami menguraikan hal audit utama dalam laporan auditor kami, kecuali peraturan perundang-undangan melarang pengungkapan publik tentang hal tersebut atau ketika, dalam kondisi yang sangat jarang terjadi, kami menentukan bahwa suatu hal tidak boleh dikomunikasikan dalam laporan kami karena konsekuensi merugikan dari mengomunikasikan hal tersebut akan diekspektasikan secara wajar melebihi manfaat kepentingan publik atas komunikasi tersebut.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law and regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
